

RETAIL & RESTAURANT

City Hosted has a complete line of Hosted Phone Services that will blend seamlessly with your business. Start up with as little as one line and then quickly expand as needed. Best of all, your locations will all be networked together so you can easily transfer calls to other locations without making your customer call back in. Plus, if your connection is ever interrupted, we can send your calls to another location or even your cell phone, automatically. Now that's service!

Call Recording	no	yes
Minimum Number of Phones	6+	1

New Location, No Problem:

Get you a new phone number and start using it AND advertising with it immediately. A great way to get your new location launched.

No More Busy Signals:

By using Call Queing and/or Auto Attendant, you can ensure that your customers get handled with just one call.

Seasonal Calling Solution:

Now there is no need to over-buy phone lines to plan for seasonal calling fluctuations. CityHosted lines allow for multiple calls and flex with your needs.

Better Service:

With Call Recording, you can automatically record all of your calls and retrieve them whenever you want to help train your staff.
